

GERMAN AIRSHIPS ATTACK WARSAW; VERDUN ISOLATED

Fierce Fighting Going on About Capital of Poland With Zeppelins Aiding Kaiser's Invading Force, Berlin Says.

BERLIN, Oct. 28.—(Via Amsterdam)—Fighting is in progress about the walls of Warsaw, capital of Poland, and Zeppelin airships are bombarding the city. The great French fortress of Verdun has been isolated and it is impossible for help to reach that stronghold. The German troops that crossed the Yser in Belgium and captured Lille have repulsed fierce counter-attacks by the allies and have made some slight progress. These are the outstanding features of a summary of the situation in the eastern and western theaters of war given at the war office today.

"The operations against Warsaw are highly successful," it was stated. "A battle is raging at the walls of the city. Heavy losses have been inflicted on the troops from either side who were put in the first lines of the Russians. The commander of one regiment had to be replaced three times as a result of the effective work of our sharpshooters."

Airships Bombard City. "Zeppelins and aeroplanes are bombarding the Warsaw fortifications with bombs and are causing great damage."

"The council of Warsaw has left the city and the inhabitants are leaving as rapidly as possible."

"In the western arena the German successes continue. Verdun, which was fiercely defended for many weeks has been cut off from help by the destruction of forts between that point and Toul. It will be impossible for help to reach Verdun and the surrender or destruction of that fortress is only a matter of time."

"Fighting is still in progress on the Franco-Belgian front. The forces that crossed the Yser have repulsed numerous counter attacks made by the allies. The Belgian army has suffered so severely that it will be of no further help to the allies. Across the Yser and around Lille our troops have advanced slightly, but progress will be made more rapidly now that our heavy artillery has been brought up."

"The British warships have been compelled to withdraw from the Belgian coast because of the effective fire of our heavy guns."

RUSSIAN WAR OFFICE CLAIMS GREAT VICTORY.

PETROGRAD, Oct. 28.—(Defeat of the Germans in their banking movement north of Warsaw is announced in a report from the Russian general staff published in the army journal today.) "It states that the Germans have retreated toward Thorn, their base in East Prussia."

A heavy snow storm is raging along the battle front in East Prussia and Russian Poland. It is almost a blizzard, but fighting continues between the opposing forces. The fiercest conflict along the front is going on in the forest of Nemlowky southeast of Rawa, where the Siberian troops are attacking the entrenched Germans with their bayonets. The battle in the forest has been raging for four days and the losses on both sides have been enormous, but three lines of Germans have been captured.

The general staff report announcing the defeat of the Germans in the north was as follows: "While the Germans were making frontal attacks on our positions along the Vistula, other forces, operating from Thorn, attempted a flanking movement apparently with the purpose of seizing the railroad from Mlawka to the fortress of Novo Golevsk and Warsaw. This attempt was repulsed by the Russians."

Compelled to Withdraw. "As a result of their losses the Germans were compelled to withdraw toward Thorn, their base in East Prussia. The forces of the enemy that reached the Mlawka district and those of further east were forced to withdraw because their supports failed to come up from Thorn."

"In anticipation of an invasion by our forces, the people of East Prussia along the frontier of Poland have been ordered to withdraw into the interior."

M'ADOO EXPLAINS THE COTTON POOL

Fund of \$135,000,000 to Aid Southern Growers Will Be Under Supervision of Federal Reserve Board.

WASHINGTON, Oct. 27.—Sec'y of the Treasury McAdoo Tuesday night made known the inner workings of the \$135,000,000 cotton pool to be administered under the supervision of the federal reserve board.

The pool, to be known officially as the "cotton loan fund," will be administered under the direction of a committee to be known as the "cotton loan committee" designated by the reserve board, members of which are: W. P. G. Harding, chairman; Washington, D. C.; Paul M. Warburg; Washington; Albert H. Wiggin; James S. Alexander, New York; James B. Forgan, Chicago; E. J. Wade, St. Louis; Levi L. Rue, Philadelphia; William A. Gaston, Boston; and Col. E. M. House, Austin, Texas.

The pool for purposes of administration will be divided into two classes as follows: A—Comprising as subscribers, banks or other corporations, firms or individuals located in other than the cotton producing states of Alabama, Arkansas, Florida, Georgia, Louisiana, Mississippi, North Carolina, Oklahoma, South Carolina, Texas and Tennessee. These subscriptions are limited to an aggregate of \$100,000,000.

B—Banks or bankers located in the cotton producing states. These subscriptions will aggregate \$35,000,000.

The plan is for each subscriber on payment of a part of the whole of the amount subscribed for of the \$135,000,000 pool to receive a "participation certificate" specifying under what terms he will be able to share in the distribution of the money realized from loans. Both classes of certificates A and B will bear six per cent interest, payable quarterly.

Sec'y McAdoo explains that New York bankers have agreed to subscribe \$50,000,000 of the \$100,000,000 of class A certificates, leaving the balance to be raised "within a reasonable time" under the supervision of the central committee of the cotton banks in the non-producing states.

The cotton loan committee shall appoint committees in each of the cotton producing states and each state committee shall in turn appoint local committees in sufficient numbers to safeguard the practical workings of the plan. All committees appointed are subject to the approval of the central committee and all committees to serve without compensation.

No Alum— No Dyspepsia

Look to the food. Eat heartily of hot breads, hot biscuit, hot cakes, made light and tasty with Royal Baking Powder, and snap your fingers at dyspepsia. It is the tasty, appetizing food that aids digestion.

There is a quality in Royal Baking Powder coming from the purity, wholesomeness and fitness of its ingredients, which promotes digestion. Food raised by it will not distress. This peculiarity of Royal has been noted by hygienists and physicians, and they are accordingly earnest in its praise, especially recommending it in the preparation of food for those of delicate digestion.
